All rates exclude 15% GST.

Conditions of Advertising:

- Only Advertisements relevant to Sports and Orthopaedic Physiotherapy will be accepted (at the discretion of the Executive).
- All advertisements will be published in the SEPNZ bulletin as well as on the SEPNZ website. Priority advertising will be feature listed within the websites classified section.
- Advertisements will only be placed in the SEPNZ Bulletin, and on the website if they are received by the 20th of the month prior to publication (see deadlines below).
- Advertisements will only be placed in 1 edition of the SEPNZ Bulletin (published 2 monthly) unless specified otherwise at the time of advertisement request.
- All submitted advertisements will be posted on the SEPNZ website for a period of 2 months at which time they will be removed unless further advertisements are requested and paid.
- All advertising rates are in NZ\$ and exclude 15% GST (International advertisers should request a GST exclusive quote for advertising).
- Acceptance of a paid advertisement does not imply endorsement of the course, conference or product by SEPNZ. All advertisements will include an SEPNZ disclaimer to this effect.

Publication Dates and Advertising Deadlines:

SEPNZ Bulletin is published electronically every 2 months.

Adverts should reach us by the **20th day** of the following months (for publication by the 20th of the following month):

- January (for Feb publication)
- March (for April publication)
- May (for June publication)
- July (for August publication)
- September (for October publication)
- November (for December publication)

Format for Advertisements:

Format:

Your advertisement should be sent in the following format:

- Word document: Arial – Font size 12 (maximum) - Text may be smaller than Font size 12.
- Alternatively a high-resolution .jpg file may be used. If sending a jpg file, please ensure that the image is clear and satisfactory when the image is re-sized to your required page size (full page or ½ page). SEPNZ cannot increase the resolution of images for reproduction and this may result in lower quality image reproduction.
